

“I read Flying Adventures the moment it arrives.”

— Aviator Bert McKenna

Hello. My wife Jan and I are extremely busy with our careers and we have found Flying Adventures and our Cessna 310 to be a great way to get away and travel distances. Over the years, Flying Adventures has lead us to Portland, Reno, Salt Lake, Los Cruces, Albuquerque, Santa Fe, San Juan’s and Vancouver Islands, Edmonton Canada, and Chicago.

I am a private pilot, multi engine and instrument rated. Flying Adventures has been a great source of places to see and equipment to buy. We look forward to reading every Flying Adventures the moment it arrives.
